QUINCY — An anonymous donor has given the Quincy Valley Hospital Foundation \$73,250, earmarking several projects and pieces of equipment to be funded with the money.

Michele Wurl, the foundation's executive director, said the donor selected several items off the Quincy Valley Medical Center's [wish list](#).

They are an anesthesia machine, a flagpole and flag, renovation for the physical therapy room, a trailer hitch for an ambulance, a convection steamer, a floor scrubber, a carpet cleaner, repairing the north wing roof, repairing a sidewalk, repairing water lines, and privacy curtains for patient rooms.
